

# eDIVO

## *A Division Officer mobile app giving Sailors the resources to succeed and the knowledge to advance*

eDIVO is a mobile app prototype developed to support Navy Division Officers and other Navy leaders. eDIVO provides quick access to information and resources that are easily understood and immediately available. The eDIVO app is designed to aggregate publicly available information and will decrease the amount of time it takes to search for frequently needed information. The Sailors can use the app on their own portable devices, and the app is available to download for both iOS and Android devices. By logically and concisely presenting relevant information, eDIVO engages and informs leaders from all Navy communities and provides on-the-spot access to official guidance.

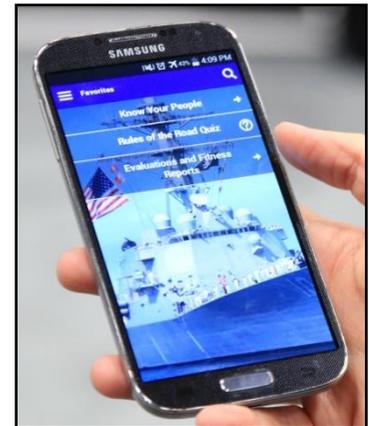

### Why is eDIVO Important?

While at sea, official information that Division Officers and other Sailors use is difficult to find and is often deeply embedded in cumbersome documents. Because eDIVO operates primarily offline, Navy personnel at sea have easy access to the correct information quickly and reduce their reliance on informal and unreliable information.

### What's in the App?

Information on the app is separated into four tabs:

- **Division Management:** This section is specifically created to help Division Officers answer questions and guide sailors on Navy policy. It includes information on evaluations and fitness reports, advancement exams, physical fitness assessments, awards, legal, uniform regulations, finances, career counseling, safety, etc.
- **Personnel Management:** Holds documents on Navy personnel policy and includes answers to the most frequently asked personnel questions on topics such as the Exception Family Member Program (EFMP), the Family Care Plan, equal opportunity, hazing, fraternization, the Family Advocacy Program, Sexual Assault Prevention and Response (SAPR), sexual harassment, suicide prevention, officer programs, etc..
- **My Bridge Team:** This section is specific to Surface Warfare Division Officers and has information on navigation basics and bridge team tools and training. It includes a Rules of the Road quiz in the Training section.
- **Emergency Resources:** Including phone numbers and websites for emergency resources like SAPR hotline, suicide prevention hotline, etc.

eDIVO is available in the [App Store](#) and [Google Play](#).

*In response to the modern needs of the Department of the Navy (DON), PMW 240 has built a process for the rapid development and deployment of Manpower, Personnel, Training, and Education (MPTE) mobile apps to the Navy. Mobile apps allow the Navy to take advantage of both government issued and personal mobile devices for performing sailor self-service functions. The PMW 240 program is part of the Navy Program Executive Office for Enterprise Information Systems (PEO EIS) which develops, acquires, fields, and sustains enterprise network, business, and fleet support IT systems for the warfighters of the Navy and Marine Corps.*
